“Good questions help us become both curious and uncertain, which is always the road that opens us to the surprise of new insight.”

Margaret J. Wheatley
Letter from the Executive Director

As I write, it is five days until Christmas and I am thinking of what has transpired this year and what awaits us all in the New Year. We’ve been talking about The New Normal so long, it’s actually become true. This has been a hard and challenging year for many nonprofit people. It has been a grinding experience of doing-more-with-less and getting to know Paul robbing Peter all too well. The state budget crisis leaves many concerned about the fate of human services, the environment and educational causes. But in some ways, things are looking better. A recent study by the Foundation Center even uses the word “growth” in the same sentence with “foundation giving for 2011.” Admittedly, it is qualified by the word “modest,” but it is a distinct improvement from the last two years forecast. There have been some very generous gifts already made in 2010. All of us have worked hard to protect the things we hold most dear.

So what qualities of character are we called to possess as we enter this new year?

We spend January 1 walking through our lives, room by room, drawing up a list of work to be done, cracks to be patched. Maybe this year, to balance the list, we ought to walk through the rooms of our lives... not looking for flaws, but for potential.

Ellen Goodman

Merriam Webster just announced its word for 2010 and it’s “Austerity.” Boy, do a lot of people in nonprofits resonate with that word choice! However, in the spirit of the beginning of things, I nominate “Potential” as the word for nonprofits in 2011. 2011 with all its promises and fears calls us to be courageous, committed and curious. All those qualities require a sense of potential to make them powerful. The Greater Pittsburgh Nonprofit Partnership has led the charge on the issue of strengthening the nonprofit voice, urging more clarity of discussion of issues facing nonprofits and those we serve. I applaud these efforts. In uncertain times with much in flux, nonprofit people who see clearly the ramifications of public policy must speak up and out to seek justice. They must be courageous and committed.

But potential also requires newness and a sense of possibility. Curiosity is an under-rated quality of strong leadership in my opinion. We spend a lot of time in nonprofit management asking How and What. Again, in uncertain times, times that call for hard choices and tough decisions, we must remember to ask Why? and What could be better? and always, Why not?

The Old Year has gone. Let the dead past bury its own dead. The New Year has taken possession of the clock of time. All hail the duties and possibilities of the coming twelve months!

Edward Payson Powell

Cheers to a New Year and another chance for us to get it right.

Oprah Winfrey

So with Oprah, I’ll tell you What I Know For Sure...for those who are courageous, committed and curious, there is tremendous work ahead filled with enormous challenge for those with eyes open, but also there are great rewards because we work for the common good and we have the privilege of believing that we’ve gotten another chance to get it right.

Cheers and excelsior, my beloveds. Looking forward to working with you in 2011...

Peggy Morrison Outon, Executive Director

The Bayer Center for Nonprofit Management

Not like anybody else.
We’re part of a university. We live the nonprofit life. We give you the time you need…

These are the things that set us apart, and are why thousands of organizations have come to trust the Bayer Center for Nonprofit Management at Robert Morris University as a comprehensive resource for education, consulting, research, and hands-on solutions for every aspect of nonprofit management.

Every one of our solutions is a custom solution.
At the Bayer Center, we build a stronger community by helping to build stronger, more knowledgeable nonprofits. We do this through collaboration, patience and relationships… combined with decades upon decades of diverse success experience.

Our approach to education is to stay on top of what’s happening in the sector, plan for what’s going to happen, listen to you, and offer the ever-adapting menu of classes you see described in this catalog.

Our approach to consulting is, when time permits and circumstances warrant, to enter into a process that builds mutual trust and respect and long-lasting results. And when time doesn’t permit, to help you deal with crisis in the instant and on the ground.

Our approach to thought leadership is to leverage our role as a Robert Morris University Center of Excellence, and to listen to you – through conversations, surveys, research, and community gatherings – to bring together the best thinking on how our sector can most effectively enhance our community.

Your reality is our reality.
Organizations on the front line need realistic solutions. Sometimes that means taking a class. Sometimes it means an in-depth planning process. And sometimes it may mean figuring out how to keep the doors open next month.

In ten years of service to the nonprofit community, the Bayer Center has completed over 900 consulting engagements and educated over 4,500 students. Our consulting clients include human service, arts, faith-based, community development, environmental and education organizations with budgets ranging from $100,000 or less to more than $50,000,000. Our intensive and customized Management, Governance, Financial and Technology consulting services are designed to educate leaders and have resulted in:

- Higher functioning governing boards
- Enhanced financial planning and management
- Heightened brand awareness
- Increased partnerships and strategic alliances
- More effective approaches to fundraising
- Better informed, evidence-based decisions for future directions
- More capable nonprofit leaders and organizations
- Effective management information systems
- Prudent software choices and website design
- A strategic approach to decision-making

In short, at the Bayer Center, we work with you: To provide effective and practical management and governance tools, information, education and research that strengthen nonprofit missions and multiply all investments of time, talent and money in regional nonprofit organizations.

United Way and Bayer Center Resources
The United Way has revised its allocations process, and that means new evaluation and reporting responsibilities for its funded agencies and an emphasis on collaboration among the nonprofits it supports.

The Bayer Center has once again joined forces with the United Way to offer valuable resources for nonprofits that are, or want to become, United Way partner organizations.

Pinpoint Planning is a toolkit that allow organizations to take a critical look at their finances and financial management, fundraising, human resources, legal issues, governance, and technology situations. Look for these tools under the “Nonprofit Management” section of this catalog.

The 2010 Wage and Benefits Survey of Southwestern Pennsylvania Nonprofit Organizations is a crucial tool for filling out the new 990 form. You can access this free resource under the “For Agencies” tab at www.unitedwaypittsburgh.org.

Featured Classes – Bayer Center Webinars!

Just how do we define a webinar? We are in the Wild West era of the webinar as a learning opportunity. To some, a webinar means a canned, recorded presentation that you sit and passively view. To others, it means a live presenter with an endless onslaught of slides with awkward silences and no audience participation.

Well, here’s what a webinar means at the Bayer Center today:

- An online learning experience that’s as lively and interactive as we can make it. Interaction is non-negotiable because it enhances learning.
- No more than one hour at a time. If we have two hours of material, we break them into two one-hour sessions. It’s hard to maintain focus in this medium for over an hour.
- Good handouts that help the learning stick. We just “hand them out” by e-mail after the class.
- Just $25. What a deal!

In short, a Bayer Center webinar offers the same value and high-quality, practical learning experience you get from our traditional classes. And this catalog gives you lots of webinars to choose from on a variety of topics. Why not try one this season?

Telecommuting

Thursday, Feb. 17 from 2 – 3 p.m.

Telecommuting can be a great, low-cost option that benefits employees and the organizations they serve, but how do you get started? In this FREE webinar, hear how Ami Dar (founder and director of Idealist.org, a New-York based nonprofit) has allowed many of his employees to telecommute with great success, with offices across the United States and in several other countries. Ami will generously share how they do it, what they have learned, and what they recommend for organizations that would like to give it a try, with plenty of time for Q&A at the end of the session.

Instructor: Ami Dar, Idealist.org
Fee: FREE, but R.S.V.P. is required

Presentation Visuals that Work

Monday, Feb. 28 and Tuesday, March 1 from 10 – 11 a.m.

Bullets are not only dangerous in guns. Although your presence and preparation make a huge impact on the success of a presentation’s ability to inform and persuade, bad visuals can undermine your message. In fact, PowerPoint itself may have taught us bad habits. This class will help you create visuals that will make your facts, stories and ideas stick with your audience.

Instructor: Jeff Forster, Bayer Center
Fee: $25

Presenting to a Funder

WEBINAR

Monday and Tuesday, April 25–26 from 10 – 11 a.m.

Although presentations of any kind can make us nervous, presenting to a funder creates a special kind of anxiety. That’s all the more reason to hone your material – what you’re going to say - and your packaging – your visuals and the documents you’ll leave with the funder – for maximum impact. This webinar will drill down from general principles about presenting effectively to focus on enlisting investment support from a funder.

Instructors: Peggy Morrison Oulton and Jeff Forster, Bayer Center
Fee: $25

The What, How, and Why of Tech Policies

WEBINAR

Thursday and Friday, April 28 – 29 from 10 – 11 a.m.

Technology policies can protect your organization, help to manage employee expectations, and establish behavioral benchmarks for your organization. In this webinar, learn about the basic technology policies that every nonprofit should consider putting into place, why they are important, and how to go about establishing them. Time will be allowed for Q&A in the latter part of the session.

Instructor: Cindy Leonard, Bayer Center
Fee: $25

Demystifying Financial Statements

WEBINAR

Friday, May 6 and 13 from 10 – 11 a.m.

In this overview webinar for people with little knowledge of financial statements, we’ll examine the key reports that reveal the economic health of your organization. By the end, you’ll begin to know how to use all those “meaningless” numbers to really help with critical management decisions and fundraising requests.

Instructors: Scott Leff and Garrett Cooper, Bayer Center
Fee: $25

Nonprofit Management

What isn’t nonprofit management? At the Bayer Center, we view nonprofit management as a holistic quilt that weaves together diverse and mutually supporting skills from governance to fundraising to financial analysis to technology to marketing to forming partnerships and alliances... the list goes on and on. Put them all together and what you have is a strategic approach to decision-making that accounts for human needs and organizational sustainability. The following classes will help you learn the techniques; our consulting services will help you put them into practice.

Some of the ways we assist organizations are:

- Performing comprehensive organizational assessments
- Facilitating inclusive planning processes that adapt to an evolving definition of needs identified in the course of planning
- Researching and performing environmental scans that clarify the organization’s position within its service and competitive landscape
- Creating fund development plans that reflect donor realities
- Recommending and exploring opportunities for partnerships and collaborations

Leadership Breakfast  
Friday, Jan. 28 from 8 – 10 a.m.

The staff of a nonprofit is one of its most critical assets. Without committed, knowledgeable people who are dedicated to making a difference, the mission is compromised. The 2010 survey will provide the most current data about salary and benefits from our region – crucial to 990 compliance, and essential for valid decision-making by nonprofit executives. All nonprofit leaders who participated in the 2010 survey are invited to join the Bayer Center and the United Way of Allegheny County for this special breakfast presentation as we discuss the results. Sponsored by Horovitz, Rudoy and Roteman.

Fee: Free, but registration is required  
Location: The Rivers Club, 301 Grant Street, Downtown

We Need to Talk  
Thursday, Feb. 10 from 9 a.m. – noon

The ability to have hard conversations at work is a skill that separates great managers from mediocre ones. This workshop will improve your ability to have conversations that get to the root of issues and challenges. Professionals who know how to facilitate effective communication when faced with a conflict know how to redirect an argument. They transform others around them from ordinary opponents to extraordinary teammates. You will understand the reasons why you are avoiding hard conversations at work – the very conversations that would make you more effective and have a ripple effect on the organizational culture.

Instructors: Seth Hufford, Carnegie Mellon University; Timothy Edris, Emerging Leaders Institute  
Fee: $65 ($55 if paid by Feb. 3)

Effective Presentations  
Tuesday, Feb. 15 from 9 a.m. – noon

There are few things more horrible than losing your audience. A narrative that lacks a human touch or audience interaction can contribute to wandering attention. In this workshop, we’ll focus on planning and executing a presentation with the specific goal of improving your audience’s level of knowledge and interest in your topic. We’ll discuss that optimal blend of facts and stories that make the experience memorable. Whether public speaking tops your list of fears or you want to take your presentation skills to the next level, this workshop will enhance your ability to present information in a way that engages your audience and moves them to action.

Instructor: Jeff Forster, Bayer Center  
Fee: $65 ($55 if paid by Feb. 8)

Nonprofit Management Clinics

Pinpoint Planning Clinic  ■
60-minute sessions available by appointment
Tired of spending too much time and precious resources trying to figure out how to best improve your nonprofit? Consider using PinPoint Planning™, a tailored and time-limited approach that provides quick analysis of critical operations in the following areas: finances and financial management, fundraising, human resources, legal issues, governance and technology.

Each PinPoint Planning™ tool is a type of audit that will take organizations about an hour to complete. It provides executives and boards with concrete information about practice gaps so that they can focus resources on specific areas needing improvement instead of a complete overhaul.

Organizations receive an internal assessment to complete and return. The Bayer Center will assign an Executive Service Corps volunteer professional from the relevant field to review your materials and then meet with you for a working session. After your face-to-face meeting, you’ll receive a report containing a number of concrete, actionable suggestions to enhance your current operations.

This program was developed by the Bayer Center for Nonprofit Management in partnership with the United Way of Allegheny County.

Instructors: ESC Volunteers
Fee: $50

Employee Handbook Clinic  ■ ▲
60-minute sessions available by appointment
Is your employee handbook up to date? Does it include all the vital elements? Does its wording comply with wage and hour laws? Is it truly the employee information source that you would like it to be? We can help you get the answers to these questions and help you to modify and update your employee handbook as needed. During the clinic, we will do a complete review of your handbook and point out the sections which are missing or require revisions.

Instructor: Ray Frankoski, ESC Volunteer

Storytelling Clinic  ■ ★
60-minute sessions available by appointment
Stories that capture the essence of your organization’s mission can be powerful tools for enlisting support. If you know that your organization does great work but you lack those two or three stories that help to explain it to outsiders, come work on your stories with one-on-one structured help. Although storytelling is a creative act, all good stories have specific ingredients. An outsider to serve as guide and first audience can hone your stories into compelling tools in your communication strategy. Note: This clinic - unlike the others - may be done by phone if travel proves inconvenient.

Instructor: Jeff Forster, Bayer Center
Fee: $50

Presentation Clinic  ■ ★
60-minute sessions available by appointment
There is always room to improve the visuals that we use to aid our presentations. Get one-on-one help to make that presentation sing. Clinic can be used for step-by-step instruction on particular techniques (e.g. formatting, animation, incorporating media) or to workshop an existing presentation for ways to punch up its informative and persuasive power.

Instructor: Jeff Forster, Bayer Center

Governance

Your organization deserves nothing less than dynamic governance. The surest road to success is an engaged Board working in collaborative partnership with a trusted Executive Director. The Bayer Center advises, teaches, and consults on basic Board functions like fiduciary responsibility, Conflict of Interest policies, and Board members’ roles in fundraising. We also go beyond the nitty-gritty to help you build Board commitment, ensure the right mix of Board membership, and get your committees functioning the way they should. And if it happens that you don’t have a good working relationship between your Board and E.D., might we suggest that the first thing on your plate should be making sure you have a good Succession Plan in place? By the way, we do that, too.

Some of the ways we assist organizations are:

- Educating Boards in best practices and state-of-the-art thinking about roles and responsibilities
- Clarifying officer and committee structures and responsibilities
- Integrating Boards into organizational fundraising
- Assessing Board make-up and assisting in recruitment strategy
- Providing tools, forms, and templates
- Getting Board members excited about their organizations

Are your personnel practices a lawsuit waiting to happen? Take advantage of affordable, one-hour consultations at LawLinks’ Ask an Attorney clinics. Meet one-on-one with an attorney after work and discuss legal issues that concern you, like:

Bylaws Clinic

60-minute sessions available by appointment

If numbers were your favorite thing, you probably wouldn’t have gone into nonprofits. But finance doesn’t have to be scary, and it doesn’t have to be hard. The Bayer Center’s focus in our financial consulting and classes is always on the practical. We’re pretty good with the numbers, but we’ve lost count of how many clients have told us that we made accounting understandable for the first time. Whether we’re with you in a 3-hour class or working as your consultant, our goal is to help you use your finances as a tool for managing your organization and delivering your services more effectively. Clarity is our business.

Some of the ways we assist organizations are:

- Analyzing financial performance ratios to identify areas of concern and aid in management decisions
- Clarifying cost allocations to determine how individual programs contribute to the bottom line or require subsidization
- Educating Boards on what to monitor in financial reports and how to interpret the data
- Considering financial issues in strategic decision-making

For information about BCNM Financial Consulting, call 412-397-6000.

Financial Wellness Package

You asked, and we listened. How do you know the right level of cash reserves? How can you create financial reports that are efficient, understandable, and help your Board members focus on what’s important for them? Is your financial model sustainable?

The Bayer Center has looked at all of these issues and more to come up with a Financial Wellness Package for management and governance. A full Package will provide your nonprofit with any or all of:

- A financial assessment that looks at key indicators and evaluates whether you are at financial risk
- An analysis of financial performance that considers current performance along with trends over time
- A customized benchmarking study using the Bayer Center’s database of over 240,000 organizations to compare you to any grouping of other nonprofits based on size, type, and location and give you the information you need to finally set meaningful and realistic financial goals
- A colorful and simple Financial Dashboard built around the questions that are important to you so management and Board members can assess financial performance at a glance
- A set of targeted questions to help Board members identify the information they need to oversee financial performance
- A presentation and training for the Board to use and understand the financial assessment and the Wellness Package tools

Contact the Bayer Center’s Associate Director, Scott Leff, at 412-397-6006 to set up an appointment to learn more about how the Financial Wellness Package can enhance your organization’s financial management and governance.

Sometime’s the question is more important than the answer

I was involved recently in an interesting conversation on an online discussion board.

An agency (not local) had lost its county contract, which also happened to be its only source of revenue. As a result, they described themselves as being “caught between a rock and a hard place” and came up with the following solution:

“...revising our Mission to include the goal of being a business development center, assisting small and/or incubating businesses within the community... While we intend to continue with work that is related to our primary Mission, though utilizing an avenue that is totally different to how we carried out the same in the last 20 years, we intend and foresee to have this new Mission take up about half of our time.”

As a result, their question to the discussion board was, essentially, how to preserve their tax-exempt status when they were converting their business model substantially to commercial real estate?

This is one of those cases where the answer doesn’t really matter. It’s the wrong question.

If they (or you) need to change your mission in order to remain viable, then the question is not how to account for hoped-for profits as a new kind of “business,” but rather an existential one.

Why has the primary funding for the primary mission dried up? Is it because the community, who is the true owner of any nonprofit, no longer values the mission in the same way it once did? If so, then the discussion probably should be exploring dissolution rather than expansion.

Is it because the organization doesn’t deliver the service at a desired level and doesn’t achieve sufficient outcomes, or because others are doing it as well or better? If so, then it’s time to explore merger rather than expansion. While nearly all nonprofits think they’re unique, very few really are.

Far too many nonprofits become too fixated on their own existences. This is completely understandable and fully human. What takes true courage and wisdom is the ability to recognize when the time has come to move on. Admittedly, this is a difficult and painful step. But if you should ever find yourself in this situation, before leaping in an entirely new direction, consider engaging an objective, outside, third party to assist you in working openly and honestly through this decision-making process. Rarely – very rarely, if ever! – do new, glommed on for-profit ventures serve as the solution to a nonprofit funding crisis. The problem is deeper than that.

So remember, if you’re really struggling to get the smart answer for your critical question, maybe it’s time to go back and reevaluate what you’re asking in the first place.
